Less concern in climate change schemes

**Nepal-Himalaya**

**PROTEST AGAINST DHURBE**
With the support of society, the locals in Bharatpur-Madi-Thori, central Nepal, have protested against the nuisance of Dhrube, wild elephant (*Elephas maximus*) and disturbed the highway along. Many families in the place have become homeless due to Dhrube as it destroyed their houses. The highway was closed from 2:00 pm to 6:00 pm Sunday as locals were protesting for their demanding compensation from Chitwan National Park (CNP) for losses caused by Dhrube.

Apr 23

**MOUNT EVEREST TO BE POLLUTION FREE**
On the occasion of silver jubilee function of Pasang Lhamu Mountaineering Foundation, Prime Minister said that Mt Everest should not be made polluted and there is need for pay attention for protection of various mountains in Nepal. He expressed concern over increasing impact of climate change on the Mt Everest and other mountains of Nepal. He also showed his concern about negative impacts of carbon emissions in Nepalese Himalayas.

Apr 23

**KAILALI IMPORTS 30,000 TONS OF VEGETABLES**
Around 15,300 hectares of land in Kailali district, far western Nepal, produces 233,000 tons of vegetables annually. Yet it imports around 30,000 tons of vegetables worth around NPR 500 million per year due to increasing demand for vegetables. According to the Chief of District Agricultural Office Kailali, internal production fulfils 60 % of district’s vegetables needs and remaining demand is met through import. However, the district is operating various programmes to make self-dependent in vegetable production.

Apr 24

**THIRTY PERCENT COMPLETION OF TUNNEL WORK AT BHERI BABAI**
The Bheri Babai Diversion Multipurpose Project which is considered to be a national pride project, located in Bheri-Ganga Municipality in Surkhet district, western Nepal has been using a tunnel boring machine (TBM), the first use of the technology in Nepal, to dig tunnel. The project has finished digging 30% of a 12km tunnel in five months using the machine. The TBM is being used to dig the tunnel through which water from the Bheri River will be diverted to the Babai River to irrigate farmland and generate electricity.

Apr 24
FAILURE IN COMBATING FIRE
Due to strong wind and heat waves, the authorities of Bardiya National Park (BNP), mid western Nepal have committed to be unsuccessful in combating with fire which has been prevailing since last three weeks. The fire has damaged the park’s area from Parewaodar to Lalmatiya. The fire threatens wild animals while smoke and ashes from fire, affects the health of people living in buffer zone.
Apr 24

WILD ELEPHANT KILLS A WOMAN
A woman was killed by wild elephant (*Elephas maximus*) at Theliya of Kanchanrup municipality, south eastern Nepal, while she was sleeping at home. It has also destroyed the property in the home. The Superintendent of Police reported the woman to be the age of 45.
Apr 24

FOCUS ON CHURE CONSERVATION
Chure (Inner Terai and river valleys), that covers 12.78 % of total area of Nepal, has been facing massive degradation since decades. However, former President has requested the government to conserve Chure by formulating policies and plans for its conservation while speaking at the Barbara Adams Talk Series titled, ‘Conservation of Chure: Why is it essential? How is it possible?’ on Tuesday. He further added that the lives of people in Chure area would be threatened if Chure is not protected. Managing farming and animal husbandry and promotion of bio gas could be some ways to conserve Chure.
Apr 25

BARPAK: QUAKE EPICENTER FACING DELAYED RECOVERY
Barpak, western Nepal, which used to be a famous tourist destination before earthquake, 2015 has now become an expanse of colourful tin roofs. Around 1,400 houses were destroyed by earthquake being epicentre killing many lives. Out of 1,400 damaged houses, only 509 have been reconstructed and 429 are still far away to reconstruct due to lack of sufficient government grant and land. The reconstruction of quake-damaged schools and other facilities are still not on pace.
Apr 25

FOREST FIRE GETTING OUT OF CONTROL
Bara district, central Nepal, having around 47,000 hectares of forest land gets forest fire every year mostly during dry season. This year too fire has been raging in Mahadevsthan, Bara for the last 15 days. According to District Forest Officer, the fire is getting out of control then fuelled by strong winds. The fire might have started by the cattle herder since most of the forest fires are started by humans, he said.
Apr 27
RISK FROM MALARIA IN DANG
Although Nepal targets to eradicate malaria by 2025 AD, the infectious disease, malaria, is still prevailing in Dang, mid-western Nepal. Altogether fifteen malarial patients have been found in last nine months in Dang according to District Public Health Office (DPHO), Dang. All the authorities, civil society and the locals must play role in order to eradicate malaria from the country. Though the number of patients is decreasing than past year, people are still vulnerable.

Apr 27

ACTIONS FOR HAPHAZARD WASTE DISPOSAL
Kathmandu Metropolitan City (KMC) has exposed 91 individuals for improper and haphazard waste disposal to legal action. They have been taken into action for not disposing waste at the designated areas or handing the waste to the garbage truck. The individual will be subjected to a minimum charge of NPR 500 to maximum of NPR 100,000.

Apr 27

WATER CRISSES INCREASES AT CHURE
Water crises, affecting humans, cattle, wildlife and environment seems to be increasing with the passing time due to massive Chure destruction. Locals of Chure claimed that rivers and other water sources are rapidly disappearing as a destruction of Chure and also urged the government to take action against it. A local of Krishna Sawar, Saptari, eastern Nepal, said that water is getting polluted and none of the authorities are worried for its conservation.

Apr 27

BOOSTING FLORICULTURE BUSINESS IN DHARAN
To boost up the production of flower in Nepal, Floriculture Association Nepal (FAN) has introduced province–level floriculture counselling center in Aman Bajar of Dharan, eastern Nepal. The center aims at boosting up the floriculture business and anyone can learn about flower business from this center. The project also aims to reduce garbage at temples by offering flower plants along with flower pots.

Apr 28

STOLEN IDOLS REPLACED WITH NEW ONES
The statue of the God Dattareya along with 21 other idols that were stolen from the Chandannath temple, a pilgrimage site in Karnali, mid western Nepal, have been replaced and restored with new idols. The idol has been placed at the original location after required religious consecration. The new idol was constructed with the help of a person from Dehradun, India and later it was transported to Jumla with help of two priests.

Apr 28

ALLURING BEAUTY OF DHAKERI BOTANICAL GARDEN
Dhakeri botanical garden, situated at Dhakeri, mid western Nepal, is the first botanical garden in Banke and is an alluring place to visit. The garden is a suitable premise for many researchers and learners to conduct botanical studies, survey and preservation on medicinal herbs. With the aim to preserve biodiversity, including the preservation of orchid (Orchidaceae) and other extinct flower species, many activities are conducted in the garden.

Apr 28
WORLD’S SMALLEST COW IN PHASE OF EXTINCTION
The world smallest cow breed (*Bos taurus*) commonly named as Naumuthe is on the verge of extinction due to the lack of conservation. The species is only found in some districts of far western Nepal and some cattle farms in Pokhara, western Nepal. Farmers do not show their interests in rearing this breed of cow which is leading to its extinction. The District Livestock Services Office (DLSO) data shows that the number of this cow is just 447 throughout Achham district, far western Nepal.
Apr 28

HUGE FIRE IN ITAHARI
A massive fire that started from electric short circuit in a shop, exploding 11 gas cylinders occurred through the Ghana Bazaar at Paruhang intersection in Itahari, eastern Nepal. The fire has destroyed four houses and there has been the loss of around NPR 10 million. The fire was later controlled by fire engines send off from Inaruwa and Itahari, local residents and police force.
Apr 28
